IAM > User groups > Create user group

Create user group

Name the group

User group name

Enter a meaningful name to identify this group.

mymorning

Maximum 128 characters. Use alphanumeric and '+', '@', '-' characters.

Add users to the group - Optional (1) Info

An IAM user is an entity that you create in AWS to represent the person or application that uses it to interact with AWS. A user can belong to up to 10 groups.
