

## Phase-5 Practice Project: Assisted Practice -

### 6.Setting up a Jenkins Pipeline.

Jenkins initial setup is required. An admin user has been created and a password generated. Please use the following password to proceed to installation:

The screenshot shows the Jenkins Pipeline tom interface. On the left, there is a sidebar with navigation options: Status, Changes, Build Now, Configure, Delete Pipeline, Full Stage View, Rename, Pipeline Syntax, Build History (selected), and Filter builds... The main area displays the Pipeline tom configuration. The Project name is 'my first pipeline'. The Stage View shows a single stage named 'Hello' with an average stage time of 1s. The Build History shows two builds: #2 (Jul 27, 2023, 5:07 PM) and #1 (Jul 27, 2023, 5:06 PM).

The screenshot shows the Jenkins Pipeline tom interface with the Stage Logs (Hello) window open. The Stage Logs window displays the output of the 'Print Message -- Hello World (self time 109ms)' step, showing 'Hello World'. The Stage View shows the 'Hello' stage with an average stage time of 1s. The Build History shows two builds: #2 (Jul 27, 2023, 5:07 PM) and #1 (Jul 27, 2023, 5:06 PM). The Permalinks section is also visible at the bottom.
